

### Overview

Eide Bailly has developed strategies to understand your client's situation, gather the right information and accurately assess the business or pending litigation. Our strategy focuses on extensive analysis, tailored to each client's individual situation which helps ensure an accurate valuation.

### Why is a valuation important for my client's business?

Understanding the value of your client's business can be essential for many litigation and dispute resolution situations. Eide Bailly's business valuation team will work with you and your client to fully understand the situation and analyze the information necessary for a proper valuation. You will have access to an accredited team of specialists with significant experience in all aspects of determining the business' value.

### What is Eide Bailly's approach to providing an accurate business valuation?

Establishing an accurate value is not always easy—that's why it is important to have a third-party involved who is objective and experienced in providing professional business valuations. Our team has developed strategies to address the complexities of a valuation for a variety of purposes, such as marital dissolution or dissenting shareholders. Our professionals can also provide expert witness and/or deposition testimony, as well as perform economic damages calculations.

Our approach begins by identifying and understanding your client's business objectives. An important role in our valuation process includes secondary research of the financial and non-financial issues that may impact your client's business' value, including key risk areas, drivers of value and macro- and micro-economic indicators. Additionally, our professionals analyze benchmarking data related to market values of comparable companies, and incorporate this information into the valuation. Research, analysis and interviews with your client's management team and other advisors provide further insight into the factors that may influence the business' value.

### Why should I choose Eide Bailly?

When you work with Eide Bailly, you and your client will work with a talented team of qualified and accredited specialists, including Accreditation in Business Valuation (ABV) professionals and Certified Valuation Analysts (CVA). Your client will receive personal attention from senior team members, and benefit from access to our industry specialists who can bring insight to your specific situation. We make it our goal to provide you with a valuation that is objective, timely and cost-efficient while firmly upholding compliance regulations and confidentiality.
